Dear Harold,

First of all I hope you're feeling better than the last time I spoke to you. The reason I'm writing you now is this. 2 days ago I got a call from Jim Garrison. He told me that he has written a new book re the JFK assassination and that the sub-title of it is "The C.I.A. And The JFK Assassination." He told me that he had sent copies of the manuscript to several researchers including Mark Lane, and that he would be sending me one next week, and that I should let Dick E. Sprague that he would send one to him also, which I did. I then called Mark Lane about it and he told me that he had already recieved a copy from Garrison and that it was very interesting, that in the book, Garrison names names, etc. Naturally, I wondered if you knew about this or not. He told me that he was having difficulties in finding a publisher for it, and he told me that he's keeping it a secret for now and that he would let me know when I could do him a favor and when the time is right to call up some publishers in New York to see if they would be willing to publish it. I said O.K. I know of the many problems YOU have had trying to get publishers for your books, so, you can appreciate the problems he is having at this time, right? I don't know if you are one of the researchers he has already sent a copy to or not. Please let me know, Harold, and, if not, I could make a copy for you or, if you have a copying machine, I could send you what he sends me and you can make a copy, or copies of it for yourself and friends of yours, and then return what I sent you back to me, so let me know soon, O.K. Harold? That's the least I can do for you if you don't have it already.

I'll be awaiting your reply.

Respectfully yours in struggle

Ted
